

# PEDIATRICS CLINIC

**TOGETHER WE  
HEAL**

We are a teaching facility that offers a team approach to your care. Your care team includes experienced faculty physicians, resident physicians who are seeking advanced training, psychologists, advanced practice providers, nurses, medical social workers, ancillary services staff, medical students, and other learners.

The Pediatrics Clinic provides a broad spectrum of general well and acute illness visits for children, adolescents, and young adults. The clinic is accepting new patients.

We are proud to be nationally recognized as a patient-centered medical home. Our model of care emphasizes care coordination and communication to best meet the needs of your child and your family.

### Insurance

We accept most insurances, including Medicaid and Medicaid health plans. If you have questions regarding insurance or billing, our patient financial counselors are ready to help you. Call our Billing Department at 269.337.4460.

### Services and procedures we provide include:

- Acute illness care

### Marisha Agana, MD, MPH

Dr. Agana completed her pediatric residency at Rush Children’s Hospital in Chicago and fellowship training in general academic and ambulatory pediatrics at Children’s Hospital of Pittsburgh. She has a multi-disciplinary Masters of Public Health from University of Pittsburgh Graduate School of Public Health. She has special interests in childhood nutrition and obesity.

### Kelly Brown, MD

Dr. Brown completed her pediatric residency at the University of Virginia and fellowship training in general academic pediatrics at the University of Rochester in New York. Dr. Brown is the program director for the WMed pediatric residency training program and works closely with medical students and residents. In addition to mentoring, teaching, and scholarly activities, Dr. Brown remains active in direct patient care. Dr. Brown enjoys working with children and families dealing with complex medical conditions, as well as providing quality preventive care to pediatric patients from birth to young adulthood.

### Cheryl Dickson, MD, MPH

Dr. Dickson completed her pediatric residency at The Children’s Hospital of New Jersey/UMDNJ in Newark, New Jersey. She completed a fellowship in adolescent medicine and developed a pediatric emergency medicine fellowship at The Children’s Hospital of New Jersey. Her special interests include primary care, community medicine, health equity, and reduction of health disparities.

### Kristine Gibson, MD

Dr. Gibson completed her pediatric residency and served as chief resident at DeVos Children’s Hospital in Grand Rapids. She chose the field of pediatrics because she loves working with children and adolescents, and values the opportunity to partner with patients and their families in optimizing physical and emotional health. She has special interests in early childhood development, and eating disorder prevention and treatment.

### Dilip Patel, MD, MBA, MPH

Dr. Patel completed his pediatric residency training and a fellowship in ambulatory pediatrics at Newark Beth Israel Medical Center, followed by fellowship training in adolescent and sports medicine at Iowa Methodist Medical Center and Michigan State University Kalamazoo Center for Medical Studies. He has special interests in chronic disabilities and diseases, primary care sports medicine and musculoskeletal conditions.

### Erica VanderKooy, MD

Dr. VanderKooy completed her residency at the University of Michigan C.S. Mott Children’s Hospital, and has experience in caring for children in the urgent care, emergency, and outpatient settings. She is the associate program director for the WMed pediatric residency, and is actively involved in teaching residents and medical students. She has special interests in newborn care, breastfeeding education and promotion, and acute care in the outpatient setting.

### Priscilla Woodhams, MD

Dr. Woodhams received her medical degree and completed her pediatric residency at the University of Michigan Medical School. She has a BA in Education from Michigan State University, and taught elementary school prior to entering the medical field. She has partnered with organizations in many locations to improve care for children including the Yakima Nation in Washington State, Dominican Republic, Ecuador, and Haiti. She serves as the pediatric medical director and teaches medical students and residents. She specializes in caring for both healthy children and children with complex medical conditions ages newborn through young adulthood.
