The following is an outline of the visual identity components for Western Michigan University Homer Stryker M.D. School of Medicine (WMed). Adhering to the standards and guidelines established herein allows for communication consistency throughout various departments, programs, clinics, and units of our institution, all falling under the umbrella of WMed.

Consistency is powerful. When our communication pieces, regardless of medium, are identifiable as coming from one institution, we demonstrate a common purpose and the strength of the mission, vision and brand of WMed will be even greater.

Using WMed’s approved identity—the logo, logo mark, colors and typography—is expected for all departments, programs, clinics, and units and is intended to cover all signage, advertising, promotional materials, correspondence, presentations, documents, etc. that will be used or distributed inside or outside the organization. The guidelines and standards provided are intended to equip you with the tools you need while allowing for the flexibility to communicate directly with your audiences.

The samples included here are not exhaustive and should questions or assistance be needed, please contact the Director of Communications Laura Eller at 269.337.4513 or by email at laura.eller@med.wmich.edu.
Western Michigan University Homer Stryker M.D. School of Medicine is a collaboration involving Western Michigan University and Kalamazoo’s two teaching hospitals, Borgess Health and Bronson Healthcare. The medical school is a private 501(c)(3) nonprofit corporation supported by private gifts, clinical revenue, research activity, tuition from students, and endowment income.

The medical school name, upon first occurrence, used in any written format for any and all internal or external purposes, should always be used in full: Western Michigan University Homer Stryker M.D. School of Medicine. Abbreviations may be used after the full name Western Michigan University Homer Stryker M.D. School of Medicine has been introduced, but it is preferred to use the full name in external communications as much as possible.

The preferred abbreviation is “WMU Homer Stryker M.D. School of Medicine”. After using the full name, it is appropriate to use “the medical school” (lowercase) throughout the written narrative. “WMed” is the shortest and most specific option.

Abbreviations that are not to be used include “Wmed”, “WMU”, “Western Michigan University”, “the School of Medicine”, “WMU’s School of Medicine”, “Stryker School of Medicine” and “Western’s School of Medicine”.

The legal name of the organization is “Western Michigan University Homer Stryker M.D. School of Medicine.” The name is not to be preceded by the word “The” at the beginning of a sentence when the name is used as a noun. For example:

“Western Michigan University Homer Stryker M.D. School of Medicine is located in Kalamazoo.”

When the name is used in a sentence as an adjective, use of “the” before the name is appropriate. For example:

“The WMU Homer Stryker M.D. School of Medicine building is located in Kalamazoo.”

It is acceptable to include “the WMU Homer Stryker M.D. School of Medicine” in mid-sentence when otherwise it would appear grammatically incorrect or unusual. For example:

“The LCME granted preliminary accreditation to the WMU Homer Stryker M.D. School of Medicine.”
COMPONENTS AND STANDARDS

The full WMed logo and components are included below. Use of the WMed logo should always adhere to this Identity Guide. No part of the WMed logo should be reset, edited, or modified in any way.

Components of the WMed logo include:

- **WMed Logo Mark.** The graphic “W” representing Western Michigan University (WMU) combined with a graphic representation of the rod of Asclepius, an ancient symbol associated with medicine and healing.

- **WMed Logotype.** “Western Michigan University” and “School of Medicine” are set in enhanced typefaces and cannot be reset.

- **Logo Rule.** Double lines connecting the WMed logo mark to the logotype and separating the primary and secondary areas of the logo as well as a subordinate area that can be used in the individualized logos for campus locations.

Primacy is defined as the topmost and most visible position for the text portion of a logo. The subordinate area consists of text that appears below the bottom-most rule line.

The logos shown in the WMed Identity Guide can be found on the WMed Portal for use by internal staff; all outside vendors please contact Laura Eller, Director of Communications, for the version and file type required. Do not copy any images from this guide or other printed materials. To reach the Office of Communications, please call 269.337.4513 or email laura.eller@med.wmich.edu.
HORIZONTAL CONFIGURATION

The WMed logo has both horizontal and vertical configurations with the horizontal configuration below being preferred.

CLEAR SPACE

The clear space surrounding the WMed logo should be, at a minimum, .375” on all sides.

MINIMUM SIZE

The height of the WMed logo should not appear less than .75” in print.

Permission to use the logo or promotional logo mark at any size smaller than described here may only be granted by the Director of Communications by email at laura.eller@med.wmich.edu.
VERTICAL CONFIGURATION

Though not the preferred configuration, the vertical version may be used when space is limited or when the space better suits a vertical orientation. The components of the logo may not be separated. In the vertical configuration, the logotype and subordinate area must be centered under the WMed logo mark.

CLEAR SPACE

The clear space surrounding the WMed logo should be, at a minimum, .375”.

MINIMUM SIZE

The height of the WMed logo should not appear less than .75” in print.

Permission to use the logo or promotional logo mark at any size smaller than described here may only be granted by the Director of Communications by email at laura.eller@med.wmich.edu.
COLOR STANDARDS
The use of consistent color is as critical to identity consistency as the configuration of logo mark and logotype elements. Do not recolor, tint, or create variations of the WMed logo.

FOUR-COLOR LOGO
The four-color logo is the preferred format for large-format printed materials (e.g. billboards) and for printed promotional materials in which photography and high-quality printing is required. The RGB values will be useful to those who want to match our colors when using the custom color setting in software such as Word and PowerPoint.

TWO-COLOR LOGO
The two-color logo is a more universally applicable format for use on print applications. It should be used on a white background when available.

ONE-COLOR LOGO
If used in one color, the logo should be printed in black.

REVERSED ONE-COLOR LOGO
The logo colors should be reversed to white when using a solid-color background. Background colors should complement the official WMed color palette.

When the two-color logo is used on a solid color or photographic background, the logotype should be reversed to white. It is advised that the logo not be used on a background that provides insufficient contrast.
ELECTRONIC USAGE

The standards set for the WMed logo apply to all electronic publications. Established webpage templates incorporating the approved standards should be used for all website pages.

The logo should not be used as part of an email signature, to maximize mobile device viewing and in consideration of email recipient restrictions. If used for other web-based platform, color and size standards must be adhered to as well. See pages 5 and 6 for size standards.

CLEAR SPACE

The clear space surrounding the WMed logo should be, at a minimum, 50 pixels.

MINIMUM SIZE

The height of the WMed logo should not appear less that 50 pixels at 72 to 100 dpi.

COLOR STANDARDS

Please note that when using the WMed logo for web or other electronic purposes, the following web-safe color corrections should be made:

- WMed
  - Western Michigan University
  - Homer Stryker M.D.
  - School of Medicine

- HEX #BD9A5F
- HEX #4D2612
LOGOS FOR CAMPUSES

Custom logos for WMed campuses demonstrate a clear and direct association with WMed. Campus designations are permitted in the subordinate area only. Inserting a campus name in the primacy position is not permitted.

Primacy is defined as the topmost and most visible position for the text portion of a logo. The subordinate area consists of text that appears below the bottom-most rule line.

The subordinate name never extends past the logo rule. All text must fit within the allowed length and all lines of the campus name are to be the same text size.

The campus logos should only be used on signage, maps, and other communications when referencing the specific campus location. There is a custom logo for the WMed Innovation Center, which was created for specific signage requirements and is not to be used for web or printed materials.

CLEAR SPACE

The clear space surrounding the WMed logo for major units should be, at a minimum, .375”.

MINIMUM SIZE

The height of the WMed logo for major units should not appear less than .75” in print.

Permission to use the logo or promotional logo mark at any size smaller than described here may be granted by the Director of Communications.

COLOR

In two-color or four-color versions of the logo, the text in the subordinate area appears in:

- PMS 4625
  - COATED: c0, m60, y100, k79
  - UNCOATED: c40, m40, y70, k30
  - RGB: r79, g44, b29
LOGOS FOR THE CLINICS

A custom logo for WMed Clinics, collectively, is available for use in specific situations, such as patient communications. The WMed Clinics logo may be used in Epic, on letterhead for patient mailings and communication, for appointment cards, and for signage. Logos are not used for individual clinics. The WMed Clinics logo will not be used for business cards, name badges, or uniforms.

HORIZONTAL CONFIGURATION

The WMed Clinics logo has both horizontal and vertical configurations with the horizontal configuration seen below being preferred. Guidelines for spacing and color are the same as those listed on page 9.

LOGOS FOR THE INNOVATION CENTER

The Innovation Center has a custom logo that is utilized for specific signage. This logo is not to be used in marketing materials, such as on business cards, brochures, or on the website.

VERTICAL CONFIGURATION

Though not the preferred configuration, the vertical version may be used when space is limited or when the space better suits a vertical orientation. The components of the logo may not be separated.

Guidelines for spacing and color are the same as those listed on page 6.
LOGO MARK COMPONENTS AND STANDARDS

The graphic “W” combined with rod of Asclepius create the WMed logo mark. This logo mark should never be used apart from the full logo, except for the variation below.

APPROVED LOGO MARK VARIATION

The promotional logo mark in which the WMed logo mark is combined with the logotype “MEDICINE” is a simplified mark that is only acceptable for signage, embroidered apparel and other small-scale promotional pieces. Usage of the promotional logo mark must be approved by the Director of Communications. Altering or customizing this version of the logo is not permitted.

LOGO USE BY DEPARTMENTS AND PROGRAMS

Custom department and program logos using the WMed logo are not permitted. None of the WMed logo configurations may have the name of a department or program appear directly under it and should not use the logo font style. Please following the clear space guidelines listed on the previous pages.

ALTERATIONS AND INCORRECT USAGE

The horizontal and vertical configurations and color standards for the WMed logo are intended to meet most design needs. The following are examples of incorrect usage.

- Do not rearrange elements of the logo mark or logotype.
- Do not adjust the size of the logotype.
- Do not add a shadow to the logo or logotype.
- Do not move or remove elements of the logo or logotype.
- Do not change the proportions of the logo.
- Do not change the colors of the logo.
- Do not add department or program names to the logo. To use the logo and department/program name, please see page 11.
PRIMARY TYPOGRAPHY

The WMEd logotypes are set in enhanced typefaces and cannot be reset.

The New Caledonia LT STD/Regular font is the serif font used for text in the subordinate area of the WMed logo.

New Caledonia LT STD/Regular

New Caledonia LT STD/Bold

New Caledonia LT STD/Italics

SECONDARY TYPOGRAPHY

Georgia, a serif font, and Trade Gothic and Univers, sans serif fonts, are recommended as complementary fonts to our logo. If our logo is being used, one of these complementary fonts below should be used for text in the document.

Georgia/Regular

Trade Gothic LT STD/Regular

Univers LT STD/Roman

WEB-SAFE TYPOGRAPHY

Our website design utilizes Oswald, Taviraj, and FontAwesome, which are web-safe typefaces to be used for all web communication. For other electronic usage, Helvetica and Georgia may also be used for main-text and/or body copy.
WMed's official colors are PMS 7562 tan and PMS 4625 brown.

WMed promotional items should utilize our primary and secondary colors, when available. Deviation from the official color palette must be approved by the Office of Communications. If the promotional item is related to a specific event, such as "Go Red for Women" and the item in question is to be used only for that event, the color for the event may be used.
The transition to WMed required the addition of academic department names that reflected a medical school structure. Appropriate names of administrative units are as shown. The residency and fellowship program names follow ACGME approved program names. These names should be used consistently in all internal and external communications.
