   Username: ___________________________
   Password: __________________________

   Login

   View Disclaimer   Login Problems?
4. You will be redirected to the *Self-Service Password Reset* page. Enter your username and temporary password again and click **Login** to begin the process.

5. Before setting your new password, you must choose security questions. If you forget your password later, you can access your account by answering these questions. Click **Save Answers** to continue.
6. Confirm your questions and answers are accurate, and click **Confirm Security Answers** to continue. Click **Go Back** to edit your questions or answers.

![Confirm Security Questions]

7. Now you must choose a new password. Follow the guidelines displayed on the page to choose an appropriate password.

![Change Password]
8. If the password meets minimum qualifications and was typed correctly in both fields, click **Change Password** to continue.

9. A progress bar will appear while your password is changed (do not close the page during this process). When the change has been successfully made, you will receive a Success message. Click **Continue** to finish.

10. You may visit [https://sspr.med.wmich.edu](https://sspr.med.wmich.edu) any time to update your password, recover a lost password, or change your security questions and answers.
